Treat all Chronic and Special Disease

YOUNG MEN

WHO MAY BE SUFFERING FROM the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. Dr. SPINNEY will guarantee to forfeit $500 for every case of Seminal weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and some small particles of albuman will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

Office Hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation Free. Thorough examination and advice $5.

P. S. For private diseases of short standing a full course of medicines sufficient for a cure, with necessary instructions, will be sent to any address on receipt of Ten Dollars. Call or address

THE PRESIDENT'S MESSAGE

A Washington dispatch of the 28th instant says: Nothing is known in regard to any recommendations of the President's message. In fact he is but just receiving the principal points of the reports of the heads of departments. As to the report that he will recommend a total abolition of internal taxes, it is not credited here. There is a general impression that he may go as far as he did in his message of last December, in which he advised the repeal of all this class of taxes, except those on distilled spirits, but this impression is not based upon any recent information about his purposes. Those who have made a study of the result of the reduction made by the last Congress and the necessities of the Government for the immediate future, do not believe that the President will feel authorized to go beyond his recommendations of last year.

EDITORIAL NOTES.

New York society circles are now discussing the rumored engagement of Jay Gould's son George to Carrie Astor, daughter of the multi-millionaire. The *Exchange* says: As George is not known to be extravagant in the way of cigarettes, and if Carrie will abstain from such luxuries as soda-water there is no reason why the young couple may not, through industry and economy getalong in the world. Especially will this be the case if it is true, as reported, that George has his fathers consent and that Carrie Astor mother.

It is not much to the credit of Californians that Eastern people should feel called upon to send money with which to repair the grave of General E. D. Baker on Lone Mountain. The Sacramento *Bee* says: It does not take long in any California community, to raise a fund of several thousand dollars for a worthy purpose, and why the grave of the eloquent, brave and patriotic Baker should have been so long and so badly neglected is difficult to comprehend.

A school teacher in the great State of Pennsylvania once started West, and was surprised that he could not tell the States by their color, as he had told them to children for nearly a generation.

It is probable that Secretary Teller will recommend the establishment of an Indian industrial training school at Sitka, Alaska, and common schools at other points in the Territory.

Last week's edition of the Chicago Weekly *Inter-Ocean* numbered 140,000 copies, the largest weekly edition of a regular newspaper ever sent out of a Chicago newspaper office.

Army and Navy Changes.

WASHINGTON, October 30.

Hon. J. C. New, after an extended interview with President Arthur, has reconsidered his determination to resign, and will retain his position as Assistant Secretary of the Treasury. Commodore A. C. Rhind was examined to-day, and promoted to Rear Admiral; he will be relieved to-morrow. Captain John Russell was promoted to the rank of Commodore, and ordered to the command of the navy yard at Mare Island, Cal. Commander Frank McNair was promoted to the rank of Captain, and ordered to duty, as Captain, at Mare Island navy yard. There will be no ceremony attending the transfer of the command of the army, from General Sherman to Lieutenant-General Sheridan Thursday morning. Two short orders will be issued—one by Sherman upon retiring the command of the army, and one by Sheridan upon assuming. Sherman will remain here several days looking after private interests, before leaving for St. Louis.

Mormonism in Idaho.

WASHINGTON, October 30.

Delegate Singhrsor of Idaho arrived here this morning and will not return home until after the adjournment of Congress. He reports that Idaho is rapidly increasing in wealth and population. The perplexing problem at present in Idaho is that of Mormonism; three counties of that territory being under their dominion and each year showed the evil increasing. The people have no idea of the power of this sect, and from what he saw he felt sure that if visited, they could muster 100,000 armed and fully equipped fanatics, eager to do battle for their faith. One remedy against the encroachment of the Mormons would be to disfranchise them, and if this failed harsh measures should be resorted to.

All to be Done Over.

CHICAGO, October 30.

An important meeting of the general officers of the Pacific roads for the purpose of perfecting an arrangement of the California business. The arrangements recently made in San Francisco were found to be very faulty, and the whole work will have to be done over again, especially in regard to the contract system, the Northern Pacific refusing to join in enforcing this obnoxious system. A commissioner is also to be elected at this meeting in the place of Gault, who declined.

Three Men suffocated.

PITTSBURG, Pa., October 30.

At Kiefer and Stiefel's tannery in the upper part of Alleghany City this morning, two men sacrificed their lives in an unsuccessful attempt to save a fellow workman. The firm has been digging a well to be used as a vat, and this morning Christ Dickson, an employee, went down to measure the depth of the water, when he was overcome by foul air. Ferdinand Schroder and Charles Schultz, who were working near by, heard his cries, and descending, were in turn both suffocated.

An Unaccountable Suicide.

SALINAS, Colorado, October 30.

Joe Johnson, a well known saloon keeper and sporting man here for years, committed suicide at 4 o'clock this morning while in bed' by shooting himself through the head. He had retired but a short time before, and was in the best of health and easy circumstances, and no reason can be assigned for the act. He was a soldier during the rebellion, serving with distinction in the 14th United States Infantry all through the war.

General Schofield in Chicago.

CHICAGO, October 30.

General Schofield, who succeeds Sheridan in command of the division of Missouri, arrived from San Francisco this morning, accompanied by his family and two members of his personal staff, Col. Wm. M. Wherry and Lieut. C. R Schofield. Schofield will publish an order, assuming formal command, to-morrow.

FOREIGN DISPATCHES.

[PRESS DISPATCHES TO THE GAZETTE.]

International Labor Conference

PARIS, October 30.

At the International Labor Conference yesterday, Henry Broadhurst, a member of the British Parliament, was elected honorary President of the Conference. Addressing the meeting, he said he hoped the delegates would adopt practical resolutions. He pointed out the importance of the workmen of all nations being in constant communication with each other. He said the trades unions in England were making slow, but sure progress, and that the workmen on the Continent might rely on English support. At the evening session, 100 delegates were present, and several French speakers urged the workmen not to abandon the field of politics, which, they maintained, afforded the only means for struggling against capital. It was suggested that it was possible to establish international legislation especially for the protection of children. One Extremist advanced the employment of force, but the foreign delegates dissented. They doubted that universal legislation is feasible, owing to international competition. They preferred the lawful progress of revolution by successive reforms, enabling the workmen to enter Parliament, and thus assist in making the laws. The proceedings throughout were orderly and dispassionate.

Will ask for More Money.

PARIS, October 30.

It is stated that the French Government, in view of the warlike attitude of China, will ask the Chamber for a much larger credit for expenses of the expedition to Tonquin, than originally extended. Even should China only remain on the defensive, larger reinforcements of troops will be required in Tonquin. The Government does not expect defeat in the Chamber, on its Tonquin policy.

A Flood in Greece.

ATHENS, October 30.

The river Salembris, in Thessaly, has overflowed its banks, causing widespread devastation. One hundred houses have been destroyed, and several lives lost. Larissa and the villages in its vicinity, are surrounded by water. Communication with the flooded district is much delayed, and the railways greatly damaged.

[PRESS DISPATCHES TO THE GAZETTE.]

Hanlon Coming.

SAN FRANCISCO, October 30.

Edward Hanlon, champion oarsman, has telegraphed his acceptance of an invitation to take part in the boat races to be held in Vallejo on Thanksgiving day. He asked for a guarantee of $600, which was immediately deposited. Hanlon will row against Austin Stevenson of Vallejo, champion of the Pacific coast, three miles, for $500.

Special Contracts.

In response to the circular sent out by the Central Pacific Railroad Company, asking the merchants for a renewal of their special contracts, 1,100 affirmative replies have been received; there only remain 300 out of the total of 1,400 contractors who have not yet replied. No refusals have been received. Special contractors will, under the terms of the circular, profit by any reduction of rates made by the Northern Pacific.

NORTHERN BELLE

Still Continues to Mine and Mill Paying Ore.

The official report of last Saturday says: Quite an important development has been made on the first intermediate shaft level, where in crosscutting to the south a body of chloride has been encountered which looks very promising, and is now showing an average width of three feet, assaying from $40 to $70 per ton. It will be some time before much of this ore can de extracted, or its extent determined, as the heat is so intense, and a drift for air connection will have to be run a long distance. There are no changes of importance on the other shaft levels. Both of the mills are running steadily and doing good work, five of the stamps of mill No. 2 still being engaged crushing ore from the Great Western mine, in Garfield district. A bullion shipment, amounting to $6,395 10, was made on the 23d instant.

The Season's Run.

The year 1883 has not been as good a one for the Truckee river lumbermen as either of the two preceding ones. The demand has not been as heavy nor prices as high. Salt Lake has not used half as much. It got a good deal in on the Denver & Rio Grande and some on the Utah Northern. The cut was divided about as follows: Truckee Lumber Co., 10,000,000 feet; E. Ellen, 2,000,0000 feet; Shaeffer, 3,000,000 feet; Richardson, 3,000,000 feet; Pacific Co., 5,000,000 feet; Lonkey & Smith, 7,000,000 feet; Boca Mill Co., 7,000,000 feet, Dog Valley mill, 4,000,000 feet.

Here Coming.

There is about six inches of snow at Summit station, on the railroad.

NEW PROCESS FLOUR.

Good News for the Nevada Wheat Growers.

F. C. Fogus has demonstrated beyond the possibility of a doubt that Nevada wheat makes a better quality of flour than California can produce. His Nevada State Mills under the new patent roller process, is proving a success. He has secured the service of J. P. Bunes, one of the best millers on the coast, and who has had charge of Bidwell's mill at Chico for several years. They are turning out 25 barrels per day, and every barrel is equal to any brand ever brought to this State. The celebrated Sacramento Pioneer flour is no better, if indeed it is so good as that made at Fogus' mill. The flour is all made from Nevada grown wheat, and while it is equal to any brand and far superior to many, it is sold at $1 per barrel cheaper than the Pioneer. The asylum and prison are using it. Warden Bell writes as follows:

S. C. Fogus Esq., Reno, Nevada:—DEAR SIR:—The sample sack of flour sent me has been thoroughly tested, and I am pleased to say, is very fine—in fact equal to any flour I have ever seen. Your bakers' extra, of which we have been using two tons a month for the last three months, is fully equal to the Pioneer brand of California; in fact if anything our bakers prefer it to California flour. Allow me to congratulate you on the success of your mill.

Yours truly,
FRANK BELL, Warden.

Mr. Fogus is proving himself a public benefactor, so to speak, for the farmers always find a ready sale for their wheat at good prices, and consumers find the flour the wheat produces all they can ask for, while the merchants can get it in any quantity desired.

Syrup of Figs' Election.

The California Fig Syrup Co. are having a bit of a row just now. R. E. Queen has been a minority stock holder in the corporation for a year or more, until a few days ago when he bought a controlling interest and a meeting was called by the majority of the stockholders for the purpose of removing the old officers. George Alt, President and Trustee; Sol Lev, Secretary and Trustee; and H. J. Thyes, Trustee, were removed this morning. Subsequently J. F. Condon and J. J. Quinn were put in and the minority re-elected H. J. Thyes to represent them. The Board now stand R. E. Queen, T. E. Haydon, J. F. Condon, H. J. Thyes and J. J. Quinn. The Board met this afternoon and elected R. E. Queen, President; T. E. Haydon, Vice President; and J. F. Condon, Secretary.

George Alt, late President of the Company, this forenoon sued and attached to recoved $2,400 alleged to be due him for services, hauling and rent.

Seriously Injured.

Last Thursday evening, says the Lyon county *Times*, Barney Moran, who works on the Sutro ranch, while driving home dropped one of the lines, and the team becoming frightened, started to run away. Moran, while trying to regain his hold on the line, fell from the wagon and broke two of his ribs. A woman named White, who was in the wagon at the time, received slight injuries by jumping out. The wagon and mules were not much damaged.

Humboldt Items.

The *Silver State* says:

A report has reached us from Spring City that J. V. McCnrdy has struck some very rich ore bodies within a week in the Wild Goose mine.

The railroad opposition to the Pacific is materially reducing the rates of fare. Those who go through on emigrant cars say they get tickets from the Mississippi river to San Francisco for $45.

Hon. L. E. Hagar of Battle Mountain went to Carson this morning as a witness in the case of the United States vs. Frey, the man who robbed the Gerald postoffice.

Ohio Election.

The following is the official vote of the Ohio election: Secretary Newman furnishes the following totals on Governor as the result of the late election:

Foraker	347,064
Hoadly	359,593
Schumacher	8,361
Jenkins	2,785
Total	721,464
Hoadly's majority	1,383
Majority for Judicial am'dt....	33,413

The second amendment fell short of a majority 39,543. The regulation amendment received 98,050 votes.

Thrilling Escape.

The men at the new bridge above Verdi had a big rock that weighed about two ton on the derrick the other day, and were raising it right over the trestle work, when a special freight came along. They saw it too late to stop, and ran into the rigging. Fortunately the ropes did not break, although the headlight was broken and the smokestack torn loose. The engine pushed the arm around, and the rock swung clear. If the rope had broken the rock would have crashed down through the trestle, and the whole train would have gone into the river.

The Arcade.

The old Arcade has been closed for several months, but since John Richardson opened the doors, it looks more cheerful and cosy than ever before. It used to be one of the most popular places of resort in Rono, and from present appearances it will soon be so again. No one knows better how to keep a first-class saloon than does Mr. Richardson, and the public will find it a pleasant resort. Call in.

Safe Place.

The telegraph has made the world very small, as the Irish informers are finding out, to their sorrow. The San Francisco *Report* says: Kavanaugh, Smith and Hanlon are having hard work to hide themselves. Their concealment, as grooms on board a Melbourne steamer, has been penetrated. Their only hope is to come to San Francisco and obtain clerkships in some dry goods store that does not advertise.

Trouble on the N. & O.

The N. & O. engine Santa Cruz came in last evening in a disabled condition—a defect in the steam pipe was the cause. The engine is being repaired to-day. Johnny Mulrooney, the stage agent, made arrangements with T. K. Hymers to carry the mail, express and passengers to the end of the track. Everything will be running as usual to-morrow.

Willing to Exchange.

Respecting the probable request of the Forestry Commission to have Congress give California and Nevada the land bordering on Lake Tahoe, to be reserved as a pleasure resort, the Central Pacific Railroad Company, who own the land, say they are willing to exchange it for other land if Congress is willing to donate it to the public.

Short of Shingles.

Pine shingles are said to be very scarce on the river. The last carload was shipped from Truckee the other day. Nelson Martin had them from Vaughn. The Glencoe Company have about 1,000,000, and that is all there is. They are making 30,000 a day.

Arm Broken.

Last Sunday, while engaged in a jumping match near the railroad depot, says the Virginia *Enterprise*, Frank Smith, aged 15, received a heavy fall, and broke both bones of his left arm between the wrist and elbow.

Letters of Administration.

Adelia Ordway has applied for letters of administration on the estate of her husband, A. O. Ordway.

SEED TIME.

How to Guard Against Impostures in Buying Seed.

People who raise vegetables and plants, must do it the same as they get religion, by faith. They can tell nothing about their seeds at all, and have to trust entirely to the man they buy them of. Seeds all look alike, and may either have the germ of life within them, or be dead and worthless without the slightest change in appearance. This shows the importance of dealing with a house that understands the business, and is at the same time reliable. If they do not know their business, they get cheated themselves, and if they do, and are not honest, they will shove the bad seed off on other people. There are houses of standing, however, that have carried on the business of years and years, who are perfectly reliable, and their seeds as sure as any can be. W. R. Strong & Co. have unusual facilities in their line, and have given good satisfaction to their army of patrons. They have just issued a catalogue of goods and prices, which is the most complete of its kind ever issued on this coast. The firm has 130 acres of its own in trees, which is under the personal supervision of that experienced nurseryman, Robert Williamson. It has never been infested with scales or bugs. W. R. Strong, the head of the house, is still active in his management, while P. E. Platt is everywhere and sees everything. He has youth, energy and business capacity, and has put fresh young blood into the business and is making it tell.

Beecher's Pets.

The great difficulty in ascertaining the facts in criminal cases, wherein the testimony of Chinese is relied upon, will be repeated in the case of a Chinaman arrested at San Jose on a charge of murder, committed at San Leandro. His arrest was procured by two Chinamen in San Jose, who pretended to know him. Some facts recently brought to light indicate that the prisoner is not the man who committed the murder, was not even at San Leandro when the murder was committed, and that his arrest is only one step in a plot of the two men who procured his arrest, to abduct his wife, who is said now to be in a disreputable house at San Francisco.

No Show For a Job.

The *Enterprise* says: It is said that men are coming to the Comstock from a distance in the expectation of getting work when operations in the Gold Hill mines are fully resumed. It is useless for them to come. There are many more men here already than can get work. A great number of men in Gold Hill—men who live there with their families—have been impatiently waiting for the past four or five months for the mills on the Carson river to start up in order to again go to work. These men are right on hand and will fill all the places as fast as there are places to fill.

Jumps the Business.

A circular issued by the Assistant Postmaster General, states "that business avocations and employments will be excluded from cards and envelopes, the name of the writer only to be given without any reference to his occupation." Names and addresses will still be printed by the Government, but the business of the individual or firm will not be advertised. Business men who wish to use advertising envelopes must hereafter get them printed at private printing offices. Uncle Sam having retired to that extent from competition with job printers throughout the land.

The Shooting Match.

In the shooting at Shell Mound on Sunday for the Forman trophy and four cash prizes, company teams of six men, seven shots to each man at the 200 and 500-yard ranges, the Carson Guard team took second prize, the first being won by Company C's team with a score of 368 to 364.

Cœur d'Alene.

The Cœur d'Alene gold excitement has at last struck Salt Lake, and several miners talk of dropping everything in hand, and starting north for the new placer grounds. The most reliable information received is to the effect that those on the ground are taking out from one to four ounces per day per man.

Justice Court.

This morning Judge Young disposed of the following cases: Sprout, smoking opium, 13 days; Frank Hoeft, petty larceny, 30 days; the French capitalist from Verdi, for disturbing the peace, $10.

Don't Agree.

A newspaper correspondent says his cattle won't eat millet. Mr. Steele of San Luis Obispo, Cal., says his stock eat it with avidity, and he proposes to extend its area.

Funeral Notice.

The funeral of Nellie, daughter of Mrs. L. C. Savage, will take place from the family residence at Glendale, to-morrow, at 2 o'clock.

Eastern Trout.

Alvaro Evans caught several Eastern brook-trout from the reservoir last evening, one of which weighed a pound and a half.

Quartz Mills Running.

The funny man of the San Francisco *Post* says: "The temperance boom continues at Bodie. Wood, which three years ago brought $24 a cord, is down to $7 50. Only one quartz-mill is running, and the people have sold their six-shooters to raise funds to pay the hall rent and the lecturer for the temperance meetings. Truly, this is a sad plight for a once lively camp." The *Free Press* replies: We don't object to the alleged humor of the *Post* man, but we do object to being cut down to one quartz-mill. Bodie has four quartz-mills running steadily, with an aggregate of 80 stamps, turning out from $130,000 to $150,000 per month. Bodie is not so dead as it seems. It is simply "playing 'possum."

A Card.

William Pinniger tenders his best thanks to his numerous friends, and the public generally, for the very liberal support accorded him in the past, and he begs to inform them that he has again effected a co-partnership with R. E. Queen, at the old stand, and respectfully invites a continuance of their patronage. The new firm have added largely to their stock of drugs, chemicals, patent medicines, wines and liquors for medicinal purposes; toilet and fancy articles, etc. In the dispensing departments they make a specialty of physicians' prescriptions and family recipes, bringing to their already large experience the latest achievements of scientific pharmacy, and are prompt in filling all orders entrusted to them.

PINNIGER & QUEEN.

Note the address—West side Virginia street, Reno.

Time For Reflection.

This morning's *Enterprise* says: In the District Court, yesterday, John J. Ward was placed on trial on a charge of assault with intent to do great bodily harm. Some months ago, while on a jamboree with some other young roosters, Ward shot and wounded one Quong Chung, in a Chinese wash-house on South C street. A jury found Ward guilty as charged, and he will be sentenced next Saturday.

THOUSANDS USING THEM.

Received Highest Award

GOLD MEDAL

At the State Agricultural Fair, 1882, for best and most scientific truss.

COMMITTEE REPORT.

We find that the I-X-L Elastic Truss is the most scientific in existence, and recommend the highest award (gold medal) that the Board can bestow. Jury:

DR. W. A. HEUGHSON,
DR. A. B. NIXON, R. R. Hospital.
DR. W. R. CLUNESS,
DR. P. E. PENDEREY
DR. BALDWIN,
DR. W. A. BRIGGS,
DR TYRRELL.

Highest award (gold medal) at the Mechanics' Industrial Fair, held at San Francisco, 1882, for best and most scientific truss in existence.

COMMITTEE REPORT.

We find that the Pad of the I-X-L Elastic Truss is of hard wood, polished, is attached by a ball and socket, or universal joint, and has a spiral spring at the back of the ball to increase the elasticity, and is more suitable where a radical cure is aimed at. We believe the I-X-L Elastic Truss to be the most scientific and serviceable in the largest proportion of cases. Jury:

AYER'S PILLS.

A large proportion of the diseases which cause human suffering result from derangement of the stomach, bowels, and liver. AYER'S CATHARTIC PILLS act directly upon these organs, and are especially designed to cure the diseases caused by their derangement, including **Constipation, Indigestion, Dyspepsia, Headache, Dysentery,** and a host of other ailments, for all of which they are a safe, sure, prompt, and pleasant remedy. The extensive use of these PILLS by eminent physicians in regular practice, shows unmistakably the estimation in which they are held by the medical profession.

These PILLS are compounded of vegetable substances only, and are absolutely free from calomel or any other injurious ingredient.

A Sufferer from Headache writes:

"AYER'S PILLS are invaluable to me, and are my constant companion. I have been a severe sufferer from Headache, and your PILLS are the only thing I could look to for relief. One dose will quickly move my bowels and free my head from pain. They are the most effective and the easiest physic I have ever found. It is a pleasure to me to speak in their praise, and I always do so when occasion offers.

W. L. PAGE, of W. L. Page & Bro."

Franklin St., Richmond, Va., June 3, 1882.

"I have used AYER'S PILLS in numberless instances as recommended by you, and have never known them to fail to accomplish the desired result. We constantly keep them on hand at our home, and prize them as a pleasant, safe, and reliable family medicine. FOR DYSPEPSIA they are invaluable.

J. T. HAYES."

Mexia, Texas, June 17, 1882.

The REV. FRANCIS B. HARLOWE, writing from *Atlanta, Ga.*, says: "For some years past I have been subject to constipation, from which, in spite of the use of medicines of various kinds, I suffered increasing inconvenience, until some months ago I began taking AYER'S PILLS. They have entirely corrected the costive habit, and have vastly improved my general health."

AYER'S CATHARTIC PILLS correct irregularities of the bowels, stimulate the appetite and digestion, and by their prompt and thorough action give tone and vigor to the whole physical economy.

GENERAL NOTES.

Morris May, of Franktown, Washoe Valley, has on exhibition a catfish of a beautiful golden color. It is the first one of the kind ever caught in Washoe Lake. It will be presented to Fish Commissioner Parker on his return from California.

Alfred Clark, who was here last week as an Attorney in the habeas corpus case against Hyams, is so impressed with the correctness of the decision in the case, that he has written a letter to Judge Boardman asking permission to have the decision published in the Pacific Coast Law Journal.

The Carson Appeal says "The officers in the State Capitol, with the exception of those in the Surveyor General's office, complain of a dearth of business. They will have sufficient leisure to peruse the entire contents of the State Library before the expiration of the next three years."

An exchange says that when your wife asks for wealth for the purchase of a new Fall hat the handsome thing to do is to hand it out. This is doubtless the handsome and proper thing, but the homely and common thing that is done is to ask her what became of the hat she got last Fall.

COST OF JURIES.—County Clerk Gilson has been figuring on the cost of grand and trial juries in this country during the year, and finds that it amounts to about $3,000. Under the old fee system the Sheriff's charges for summoning a venire of jurors frequently amounted to about $1,000, but the amount above stated is for per diem and mileage of jurors only.—Winnemucca Silver State.

The Winter schedule for the Northern mail goes into effect November 1st. In Summer the mail is carried through to Susanville in one day and in Winter the contractor is allowed two days. To meet the requirements of the Winter schedule the N. & O., will hereafter go out every day, Sundays included. Although two days is allowed in which to make the trip, the mails will leave Reno and Susanville daily.

A letter from Capt. A. D. Rock, of Eureka, informs us that he has formed a partnership with T. J. Read in the surveying and civil engineering business, and that they are prepared to take contracts for getting United States patents at lower rates than have been heretofore charged, or at prices ranging from $200 to $300, which covers the entire expense excepting the cost of travel to and from the claims to be surveyed. They are both first-class surveyors and thouroughly conversant with all of the red tape routine of the Land Office. Their address is Eureka, Nevada.—Tuscarora Times-Review.

[S. F. Bulletin, Oct. 27th.]

A party of bear hunters leave here this morning, by the Southern Pacific and Atlantic and Pacific Railroads, for the San Francisco Mountains, Arizona. The party consists of Lieutenant Governor Laughton, of Nevada, Frank F. Stone, son of Dr. Stone, and Harry P. Smith, Jr., local agent of the Missouri Pacific, and the Wabash, St. Louis and Pacific lines. They will go to Holbrok, A. T., by rail, thence by ambulance to Fort Apache, where they will take saddle horses for the mountains. At Fort Apache they will be the guests of Captain Dougherty, commander of the fort. They expect to be absent about ten weeks.

The New York Tribune says: The principal point in the address of Lord Coleridge to the Yale College students Friday last, was his reference to the study of classics. He disclaimed any wish to criticise anybody, but what he said was practically a direct reply to the recent oration of Charles Francis Adams. Coleridge said he owed whatever degree of success in life he has attained to the constant study of Latin and Greek. This personal testimony, coming from such a source, must be considered very strong. Moreover, other arguments which Coleridge advanced were forcible and well put. In this controversy, at present the classics are decidedly ahead.

(Virginia Chronicle, Oct. 29th.)

The insane asylum at Reno is a whole community in itself. It requires the most constant and watchful care—far more, in fact, than the State Prison. The guards are chosen not only for their steadiness, but for their strength and watchfulness. For ever since the arrival of the patients from Woodbridge, Cal., where they were formerly confined, the increased freedom has developed a kind of license unknown in the former institution.

At Woodbridge they were closely confined in a penyard about twenty feet square and were clothed in the shabbiest manner. In fact, when they arrived at Reno and were transported in wagons to the asylum, their miserable attire was a subject of general comment. One of the most beneficial measures introduced by the management has been the weekly Saturday night dances. These recreations have had a very beneficial effect upon the patients. Many of the best citizens of Reno visit the asylum on dance nights, and engage in a quardrille or polka with Queen Victoria, Richard the Third, the Empress of Austria, Popes of Rome and many other distinguished characters. The grounds about the asylum are being constantly improved. It is proposed to build a bridge across the Truckee river, near the prison walls, and to cultivate a large tract of land on the opposite side.

The Attorney General of the United States is compelled to inform the colored people of Arkansas, who are being persecuted by the white Democrats, that the United States Government has no power to protect its citizens, that they must look to their State Legislature, and failing there, must leave the State. Their leading men advise them to leave. The Arkansas Legislature will not be in a hurry to pass a civil rights bill.

The Stockton Herald, (Arthur McEwen), commenting on the attempted assassination of William Neilson, the attorney arrayed against Sharon, says: "It is not an unheard of thing for Nevada millionaires to procure the murder of persons who have incurred their hatred. We venture to say that Senator Fair will neither be shocked nor incredulous when he learns that Sharon is suspected by Neilson of having hired assassins to silence him."

The Philadelphia Leader's New York special says: It is learned that ex-Governor Tilden is going to have a grand house-warming after election and it is said invitations are already out. The object of Tilden, there is no impropriety in saying, is not only to display to his numerous personal friends his magnificent residence constructed on Gramercy Park at a cost of nearly $250,000, but to effect a formal reconciliation of the house of Tilden with the house of Tammany, foreshadowing a possible renomination of the "old ticket" by the next National Convention. His plans are subscribed to by such prominent men as Governor Cleveland, August Belmont and the entire city Congressional delegation, as well as the Tammany boss. It is also part of the programme to have Randall for Speaker of the House.

The Alturas Independent has the subjoined in reference to the cultivation of this seed in that section:

For some time past, the farmers and stock raisers of this county have been considerably interested in the grass known as evergreen millet, and quite a number have experimented with it, though none of the experiments have been on an extensive scale. It was believed that if this grass possessed the qualities claimed for it, that it could be sown on the hills and dry lands, and thus afford a never-failing supply of food for stock. Late developments, however, go to show that it cannot be depended on for Winter feed in this climate for the reason that it is too tender—too easily affected by frost. In conversation with Mr. Jacob Gilcher, of Surprise Valley, the other day, that gentleman informed us that last Spring he planted a few seeds of the evergreen millet; that grass came up and flourished nicely, until a few days ago, when there came a light frost and killed the grass to the ground. Mr. Gilcher thinks it possible that the roots may live through the Winter and the grass grow again; but he is satisfied that it will not do to rely upon, and that any frost that will kill tomato or melon vines will kill this grass.

The Chicago Tribune's Westport (Conn.) special of the 27th says: Much excitement has been caused throughout the State by the discovery of the mutilated body of Mrs. Julia Godfrey, near this place, under circumstances which may make the case almost as interesting, if not as famous, as the crimes which ended in the unavenged deaths of Mary Stannard, Jennie Cramer and Rose Ambler. This time the victim is a young married woman of Saugatuck, pretty and accomplished and popular with a large circle of acquaintances. Gossip has trifled with her good name and there have not been infrequent rumors that her husband had reasons for jealously and that her home life was not happy. Edward Godfrey is one of the best-known residents of Saugatuck. He has lived in the place all his life. Ten years the senior of his wife, their tastes in many ways have been marked by dissimilarity. The young wife was full of life and animation. She cared more for social pleasures than for the dull routine of home duty, and it was not unusual that while the husband remained at home at night to care for the family, the wife was enjoying the fascinations of some rural ball-room. A week ago, it is reported, there was a bitter quarrel in the Godfrey household and the husband is said to have told his wife that she must reform or leave his house.

A party of gunners yesterday found her body half-buried in the mud on the Saugatuck marshs half a mile from the Westport station. The body was in a shocking condition, with blood smeared over the face and hands and not yet washed away by the water. Over the right eye was a deep gash and on the head, in two or three different places, were large bumps, resulting, probably, from heavy blows inflicted by some blunt weapon. Near the center of the forehead was a deep indention and the skull was fractured. It looked as though an ax had been used to commit the crime.

The local officers have been busy investigating the woman's death, but they have found no clue to fix the crime, and in the absence of all ability to do this, they have decided in an off-hand manner that the woman committed suicide.

FRANK AND CLEAR.

Having Admitted the Strength of the Evidence, an Eminent Physician Takes Logical Action.

The following letter tells its own story. The signature will be recognized as that of the Physician-in-Chief of the De Quincey Home, and author of "Drugs That Enslave," "The Hypodermic Injection of Morphine," "A Manual of Nursing," and many other popular and valuable special medical works:

191 WEST TENTH STREET,
NEW YORK, August 14, 1880.

MESSRS. SEABURY & JOHNSON,—Gentlemen:—Like most of my profession, I am cautious about pinning my faith to any new medicine or curative agent. But your BENSON'S CAPCINE POROUS PLASTER has broken through the barriers and won its way to my good opinion. My attention was first called to it some eight months ago by a patient of mine, although I was well acquainted with the superior excellence of your other plaster and anti-septic dressing, made especially for the profession, the Benson's was comparatively new to me. I had heard, however, of its merits as a remedy, in cases of lame back, local rheumatism, neuralgia, congestion of the bronchial tubes and lungs, dyspepsia, torpid liver and the like affections, and have since begun to experiment with it personally. I find BENSON'S CAPCINE PLASTER an exceptionally clear plaster to use and rapid in its action.

Many tests of its qualities, made in my own family and among my patients, have convinced me that there is no other single article so valuable for popular use, nor so helpful in the diseases I have named.

Should you desire to do so you may use my name to that effect.

Very truly yours
H. H. KANE, A. M., M. D.
